

# Exude

SILICONE EDGE GRAPHICS (SEG)

Exude is our take on Silicone Edge Graphics. SEG is an innovative and upscale – yet seriously simple – way to amp up your space with large-format artwork or images.

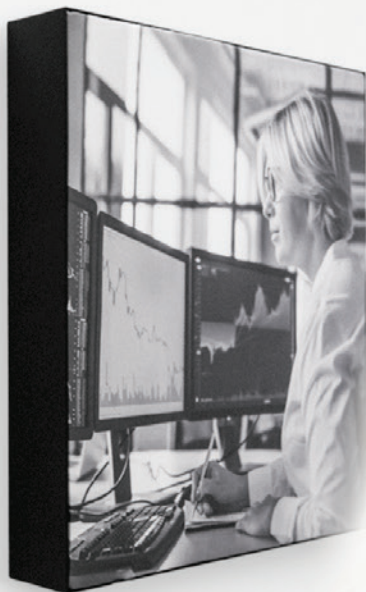

Silicone Edge Graphics (SEG) feature custom graphics printed on seamless stretch fabric with silicone beading sewn along its perimeter. The fabric is stretched across the frame and the beading inserts into the frame's groove.

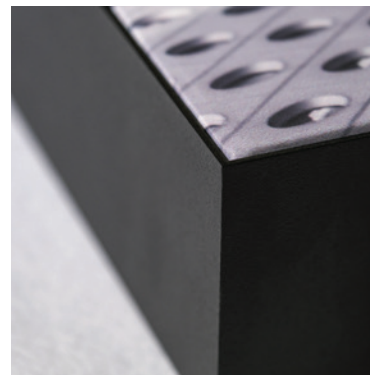

SEG frames are ideal for seamless large format wall graphics – limited only by your wall size and imagination. Graphics of 50'w x 10'h or more? No problem.

# Graphic impact made easy.

**Keep the frame, change the graphic.** Exude makes replacing or updating your artwork fast and easy. Just order a new graphic. We'll have it to you in about a week. Then it swaps out in minutes. No tools or new frame required.

**Materials matter.** Exude frames are constructed with sturdy extruded aluminum. Finish options include satin silver, black, and white. Custom colors are available upon request.

**Precision-fit frames.** 4.75-inch frames feature tool-free hardware that ensure proper alignment and secure connections.

SILICONE EDGE GRAPHICS (SEG)

**Light 'em up.** Exude frames can include bright interior LED illumination to give Exude extra pop.

**Go deep or go sleek.** Illuminated wall applications require the 4.75-inch frame depth to accommodate lighting requirements. Spec non-illuminated wall frames in 1.25- and 4.75-inches. Freestanding frames require a 4.75-inch depth.

**Make big impressions with Exude.**
